Your sleep effects your
start into the day.

THE MORNING PLEASURE START WITH A
GOOD NIGHT SLEEP

A SOFT PILLOW AND WARM QUILT
REFRESHES YOURSELF AND WELCOMES
THE DAY IN PEACE, JOY AND HARMONY.

IN PENELOPE'S SLEEP LABORATORY
BEDDINGS ARE DESIGNED AND
SPECIALLY MANUFACTURED ADAPTING
TO ALL TYPES OF SLEEPING POSITIONS
AND SEASONS. BEGIN A GOOD NIGHT
SLEEP BY CHOOSING YOUR RIGHT
QUILT AND PILLOW.

A SUITABLE PILLOW AND QUILT WILL
CHANGE YOUR LIFE.

Everybody has different sleeping habits. Our structural characteristics change our sleeping positions.

For this reason, it is important to choose the right pillow and quilt according to our sleeping habits. This choice will affect your sleeping habits.

The choices we make in sleep products take us to a good night sleep or to a disastrous night

So how do we choose the right product?

You can start with choosing the filling material of the pillow or quilt. Are you a side sleeper a stomach sleeper or a back sleeper?

This can be considerable while choosing the right pillow whereas temperature rates of quilts are important.

In this catalogue, you can find suitable products according to your sleeping habit and

Start with choosing the appropriate filling material for a healthy sleep...

ACCORDANCE TO FILLING MATERIALS

NATURAL MATERIALS

GOOSE DOWN

Hygroscoopy?

Goose down quilt takes off the moisture and sprays it back during the day time by its hygroscopic characteristic.

COTTON

Soft and natural cotton

is breathable and reduces perspiration ideal for spring and summer use by its pure and healthy structure.

CAMEL HAIR

Makes an ultimate sleep come true with a clima effect by heat isolation of the filling material of 10-14 micron thickness, it keeps warm during cold nights and keeps cool during hot nights.

BAMBOO

Natural, anti-bacterial and washable pillow and quilt with a bamboo-kun fabric is

ideal for spring and autumn.

WOOL

Long-lasting, natural and washable product

absorbs body moisture and provides a dry microclimate for a comfort sleep

LATEX

Made of the milk of the caoutchouc tree.

The hole design of the pillow makes it breathable and reduces perspiration. The flexible design of the pillow releases the pressure points of the head zone providing a comfortable sleep.

SYNTHETIC MATERIALS

MICROGEL

Microgel products first added by Maya Tekstil in Turkey present a light and soft feeling for the thickness of the fiber is reduced to 0.7 denier.

FIBER BALL

Fiber balls change positions according to your head and neck to give support for they can move independently during your sleep.

This specification gives ultimate comfort.

MICRO FIBER

light, soft, hygienic... easy washable; the superior isolation characteristic of the filling material reduces heat lost to the minimum

VISCOELASTIC

takes shape according to body heat, releases pressure points of neck and head part thus provides a comfortable sleep.

Correct pillow means healthy sleep. Healthy sleep is a joyful morning and a peaceful life...

ACCORDING TO YOUR SLEEPING POSITION

UNICO

GOOSE DOWN PILLOW

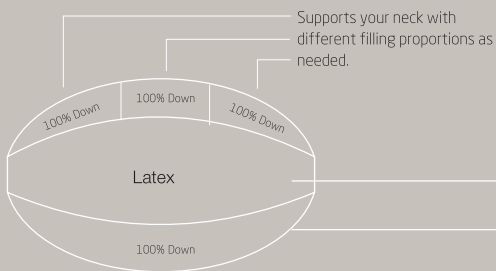

Natural, healthy multifunctional
goose down pillow with supportive latex pillow
inside increases the sleep comfort.

Stomach Sleepers: Use the zipper to take out the inner latex pillow for low height

Back Sleepers: You may use the latex pillow individually for medium height with a different cover.

Side Sleepers: Use the Unico pillow with the latex pillow inside to fill the neck gap.

Breathable and natural latex pillow helps to prevent perspiration with its special characteristics.

This side is specially soft for a comfortable sleep.

Coolness effect during the sleep!

New and very special pillow of Penelope Medide Group, Medigel is designed for users that sweat in the neck part. Medigel is the viscogel orthopedic pillow which creates a cool and fresh feeling.

 COOL
TECH

3 DIMENSIONAL GEL
MOLECULE CHANGE
SLEEPING TECHNOLOGY

"Medigel pillow is covered by a 3 dimensional molecule technology which creates a cool and comfortable feeling. The freshening feeling is continuous due to its molecular technology even in case of a temperature rise in the room. A wet feeling never appears with medigel.

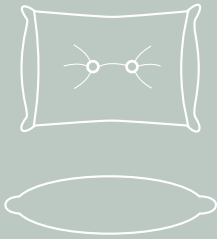

It creates an ergonomic form with its viscoelastic filling material. Medigel offers a permanent solution for people having sleeping difficulties due to perspiration in the neck part"
